Creating a Summary Report

From the top menu select Status Reports > Summary Report

Specify the date range

There are two ways to determine the date range for your enquiry; either by the date the form was completed or the post during which the form was completed.

The searches can interact in an unpredictable way however, so the following method is recommended:

Specify the post dates first. You can either specify posts within a date range, an academic year (Aug 1st to July 31st), or specify current forms only.

If you want to reduce the search further, insert a date range into the ‘Forms submitted From:’ boxes at the top of the page. Otherwise leave them blank.
e.g. 1 To search between 1st and 30th April 2014:

Select 2013-2014 from the ‘post dates’ options

In the ‘Forms submitted From’ boxes insert the date range 1/4/2014 to 30/4/2014

e.g. 2 To search for all forms completed by trainees in their current posts:

Select ‘Current Posts’ from the ‘post dates’ options

Leave the ‘Forms submitted From’ boxes blank

Specify the data
Select the forms to want to report in the top dialogue box (up to seven can be selected).

Specify the sample
Specify whether you want to search for trainees at a certain stage of training (1-3) by selecting the required group from the ‘Grade’ drop-down menu.

Specify the locations to want to search using the ‘Location’ drop down menu. You can search at the level of a LETB, trust or hospital.

Click ‘Search Forms’

To view the dates the forms were completed and the specific type of form click the magnifying glass icon to the right of the table.

To view a trainee’s portfolio click the magnifying glass icon to the left of the table.
