3.6 Details of research projects being undertaken within the unit

Involved in national research projects on an ad hoc basis.

3.7 How is the unit staffed

Each consultant works a Mon-Thursday in continuity, then does a Saturday on-call
Others provide overnight cover on a 1:8 basis and a Friday / Sunday on-call combination.

Part 4 Training

4.1 Details of training opportunities on the unit

Trainees are encouraged to review patients on wards, ED and in Adult Critical Care Unit and to participate in multidisciplinary ward rounds / lead them where appropriate.
Training in all practical skills relative to general intensive care including vascular access, advanced airway management (including percutaneous tracheostomy), renal support, focused intensive care echo.
Trainees also encouraged to be involved in departmental teaching, including teaching for FY1 colleagues, nurses and multidisciplinary team members.
Weekly radiology meeting and MDT
4.2 Details of departmental teaching days

- Friday afternoon, rolling programme.
- Simulation training run by NHSL

4.3 Details of clinical governance meetings and / or M & M

- Weekly multidisciplinary team meeting (including review of radiology with consultant radiologist)
- All deaths reviewed by formal M&M process and discussed at quarterly meeting

4.4 Number of trainees on each tier of the rota

At any given time we have 2 trainees undertaking their formal ICU rotation, with out of hours cover provided by all trainees on the rota. We also have 3 APCCs who are highly experienced. We have an FY1 assigned to the department at all times, and have plans in place to have a regular dual trainee present as part of their stage 3 training.
